1. On 10 Dec 57 I returned the five photographs of flying saucers which were obtained from

asked if it would be possible for us to submit to his any evaluations which might have been made on these photographs and I replied that it was very doubtful but that I would pass on the request to besignarters. Explained that he was attempting to set up a TV show to brief the public that if and when they ever see any U.F.O. s. to call his and if possible take a photograph of the object so that he would be able to keep the public abreast of the latest developments.

3. He then asked me if it would be possible for him to mention on the program that an intelligence organization had viewed the photographs and thought they were of interest. My immediate reply was in the "megative". This was accepted graciously by

then asked me if he could write a letter to the "Director" making his opinion as to the evaluation of the photos and to ask his permission to present this material on TV. I told his that I could not advise him about writing or not writing a letter but that he as a US citizen, interested in U.P.O.'s would have to make his own decision. With this, the interview was completed.
